Sheep vs. Dogs.

To show the injury infl cted upon farmers who raise sheep, by the dog kissing can be done by the telephone by the single county of Franklin. Indiana. From official and sworn statements, there were 640 sheep killed by an any miles from his beloved wife, an greet her with as cordial a kins as he would merit had he just brought her home a scalskin cloak. Don't believe a word of it. The delicate aroma of a loving kiss may be transferred over the front gate 2 without impairing its deliciousness. Kisses have been sent by mail, and after being slobbered over by the maudlin recipnuisance, take the facts as presented -that the husband, separated never foed, making no returns, each one cating as much as a pig or a sheep, and many of them owned and kept by tamilles that are partly kept by the county. The people are taxed to support the dogs, which, in turn, kill their sheep, robbing them and the county of their sheep, robbing them and the county of their sheep raised to cach life the greatest contribution to medicine of the agre. It matters not how long or severely you have been sustring, you can be cured. Mr. Joseph M. kyper, Cleveland, Ohio, Writes: I suggered for years with liching and iderated piles, tried remedy after remedy without relief, until I obtained a box of Dr. William's Indian Ohiothert some four mouths ago and it cured me completely. It is certainly a wonderful discovery, and should be used by completely and should be used by the many thousands who are now suffering with that dread discase. If there was a sheep raised to each ridiculous. dog in the county, and added to the number of sheep killed, it would add 2,640 to the sheep, which, at the appraised value, would add to the wealth of the farmers and to the tax duplicate \$7,527 each year. These are facts that should claim the serious consideration of the people and their representatives in our legislature.

AN HISTORICAL FACT .- Every agent who has been steadily the Improved \$20 Homestead Lock Stich Sewing Machine for three years. owns his dwelling house, has a good account in bank, is clear of debt, and has money at interest, -the natural consquence of securidg a good agency for superior goode at the lowest prices. A good first-class Sewing Machine most useful—relible at all times, easy to understand and control the same size and does the same work as any machine that sell at Four Times the price. There is no machme at any price better, or that will do finer or more work, and certainly none so low in price by many dollars. The Homestead is widely known and used in thousands of faimllies in the Eastern and Middle States, and daily becoming popular in the West. It will save its cost several times over in one season, doing the work of the family, or will carn four or five dollars a day for any man or woman who sews for a living. It is the strongest machine made, is ready at all times to do its work, makes the strongest and finest stitch yet invented, and is fully acknowledged as the Standard Family Sewing Machine. Prices complete for domestic uso Reduce-

(Herald, St. Joseph, M., 13, 1877.) The "White" Shuttle Sewing Machine is the first instrument seen in Floral Hall on entering rom the cars. They are fast becoming the favorite in this section. For heavy sewing they hav no rival; the arm giving space enough for the heaviest goods to pass under, while in fine work they do their work with a rapidity and noiselessness perfectly autohishing. We find here seven different styles of Machines-varying only in the finish; all are equally good and, we believe, as near perfection as the much improved sewing machine can be. These peerless Machines can be bought at prices ranging from \$25 to \$40. Those in search of a cheap, durable and perfect Machine can do no better tha to examine and

purchase these Machines. Landmark, Platte City, Mo., September 8, 1877.) B. Whiteley, General Manager of the "White" Shuttle Sewing Machine is on the Fair Grounds, and making a very fine display of the different varieties of his Machine. Mr. Whiteley has met with unprecedented success in our country and ection, and we have yet to hear a word of dissatisfaction expressed in regard to what he claims for the "White." In fact many for our itizens are exchanging other and standard Machines for the "White,", feeling satisfied that it is the best as well as the cheapest. Owing to the unprecedented number of orders soming in, Mr. Whiteley has been compelled to appoint an extra agent for this county, and no machine agent will come in competition with the "White"—in fact, this Machine is carrying by storm everything in the shape of a Sewing Mathine that comes in contact with it. If you want to examine or buy one of these machines call on or address,

A. W. COALE. Craig, Mo. or B. Whitely, St. Joseph.
